

Donate & Receive a Printer-Friendly Parts List & Directions

In response to visitor requests, we created a pdf document (6 pages, full-color) that contains the information on this page, nicely formatted for printing . . . PLUS the full, detailed, and illustrated-with-pictures assembly instructions with our best tips.

Bring it to the store when you shop for parts and refer it while making your rain barrel!

Use the donate button on the website and send us a minimum of \$5 (additional means more karma and gratitude for you! ☺). We will promptly send the document to you (within just a few hours in most cases) for your private use.

You can, of course, copy and paste any of the information on our website (within the limits of copyright) for free. Though it will take a bit of work to get it looking decent.
